

Zoom Update Notes Archive 2022

November/December 2022

- Speaker attributions for live automated captions
- Meeting and webinar countdown timer
- Q&A functionality added to regular meetings
- Slide control enhancement for persistent assignments
- Overhaul of Team Chat functionality and accessibility
- Additional annotation interface for ease of access

October 2022

- Enhanced **Whiteboard Dashboard** with new controls
- New templates for Whiteboard collaboration
- Search participants in Breakout Rooms
- Broadcast audio to Breakout Rooms

Summer 2022

- Set video filters to be persistent for future meetings
- Meetings with Multiple Participants Share Content pre-enabled
- Persistent Gallery view after pinning
- Simultaneous sharing for panelists in Webinar
- Chat Etiquette Tool allows for chat policies to be set
- Support for multi-spotlight for cloud recordings

March/April 2022

- Rename participants in Waiting Room
- Enhancements to Meeting UI for mobile devices
- Avatars
- Setting to allow alternative hosts to edit meeting polls
- Export registrant management report
- Introducing: Zoom Whiteboard

February/March 2022

- Language Interpretation relay enhancement
- Expand/Collapse all Breakouts when self-selecting
- Enhancement to public channel mentions
- Setting to allow alternative hosts to edit meeting polls
- Optional include co-host when automatically assigning breakout rooms
- Share audio with content to all breakout rooms
- Save Breakout Room assignments for future use

January 2022

- Enable Language Interpretation by default
- Create, remove, rename breakout rooms after launch
- Add video to waiting room

December 2021

- Allow hosts to enable focus mode when scheduling meetings
- Disable broadcast message from host to breakout rooms
- Save custom gallery view order

October 2021

- Polling enhancements for quizzing + co-host access
- Presentation slide control of PPT & Google Slides
- 2-way interaction between host and waiting room
- Aligned separate audio tracks and unique file names for local recordings
- Reclaim host when entering a meeting

- Full availability of live transcription feature
- Profile photos appear in in-meeting chat interface

Summer 2021

- In **Focus Mode**, only the host can see participants' videos and profile pictures. You can start Focus Mode from the "More" menu on the toolbar of the desktop client.
- Meeting hosts can **create a survey** to launch at the end of a meeting. Meeting participants will be prompted upon closure of the meeting
- Users can customize the Waiting Room by uploading a video. This enables meeting attendees to watch pre-recorded videos to the start of the meeting
- Transfer meetings between devices
- Stop incoming video
- Poll access for alternative hosts
- Aligned separate audio tracks and unique file names for local recordings

March/April 2021

- **Immersive View:** Recreate the feel of your classroom, conference room or choose from several other scene options, by placing video participants onto a single virtual background. Participants are automatically placed onto provided scenes, but the host can upload their own custom background and adjust the arrangements as needed.
- Full Emoji Suite: If the meeting reactions feature is enabled, account owners and admins can allow meeting participants to **use all emojis** or a predefined set of 6 emojis.
- **Enhanced custom gallery view with hidden non-video participants**,
- Ability for users to view submitted incident reports, and to manage email invitations for language interpretation.
- Improved: **Clearer designation of shared content**
- Resolved: Echo audio issue, slides as virtual background not recording properly, pinning non-authenticated users
-

February 2021

- Custom gallery layouts, multi-pinning and multi-spotlighting
- Video & studio filters, **virtual background support for more CPUs**
- **Share multiple screens simultaneously**
- Enhanced Outlook & calendar integration
- Custom time limits for "join before host" feature
- Search users when adding alternative hosts
- Host can admit participants from the Waiting Room while within a Breakout Room
- **Breakout Room improvements** for hosts and participants
- Raise hand for host and co-host
- Poll reports available during live session
- Improved grouping of security options when scheduling
- **LIVE TRANSCRIPTION** is now available in the latest Zoom client software. The feature, when enabled by the host, automatically creates subtitles in real-time. For more info, please see the **TechConnect** press release or this handy guide from **The University of Minnesota**.
